Experience

- **Full Stack Development Intern, Ernest well Business Solutions.**   **Jan 2025 – Mar 2025**

- **Completed Training on MERN Stack, Quality Thought**   **Jul 2024 – Dec 2024**

Skills

Python, Core Java, MySQL, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, Node.js, MongoDB.

Projects

Study Abroad Guidance Website using MERN Stack

Developing a user-friendly website to assist students planning to study abroad, particularly in the UK.

- Designing and implementing a responsive web application using the MERN stack to provide information on universities, courses, and application processes.
- Integrating authentication, interactive dashboards, and a structured content management system to enhance user experience and accessibility.

Multivendor E-commerce Application using Node.js, ReactJS and MongoDB

Developed a feature-rich multivendor e-commerce application using the MERN stack.

- Developed a multivendor e-commerce application using the MERN stack, enabling vendor registration, product management, and order tracking.
- Implemented user authentication and an admin dashboard for centralized management, ensuring scalability and responsive design.

Weather Application (HTML, CSS, JavaScript)

Developed a weather application that fetches real-time weather data using an API.

- Built a user-friendly interface displaying weather conditions, temperature, and forecasts dynamically.
- Implemented API integration for real-time data retrieval, ensuring accurate and up-to-date weather information.

Bird Species Classification using Deep Learning

*Designed and developed user-friendly Interface to classify birds using CNN and **Tkinter.***

- Developed and implemented a deep learning model for bird species classification, utilizing state-of-the-art techniques in convolutional neural networks (CNNs) and transfer learning.
- Contributed to the field of ornithology by providing a scalable and efficient solution for automating bird species identification, potentially aiding researchers, conservationists, and bird enthusiasts in their efforts to monitor and protect avian populations worldwide.

Education

Sree Venkateswara College of Engineering (SVCN), Nellore, A.P   **2020 - 2024**
- Computer Science and Engineering | CGPA: **8.0**

Academic and Extracurricular Achievements

- Certified in **BASICS OF PYTHON PROGRAMMING** from **MICROSOFT**.
- Active participant in Technical Events, good in Problem-solving and logical reasoning.
